

STARTUP LEAN CANVAS

PROBLEM

- Delayed basic health info access
- Fragmented health calculators & trackers
- Alarmist self-diagnosis search results

SOLUTION

- Unified glassmorphic dashboard
- Secure agentic chatbot
- Rapid symptom check reports

KEY METRICS

- Active habit log frequency
- Chat response latency (<1s)
- Symptom analysis completions

UNIQUE VALUE PROP

- Secure proxy health chat
- Dynamic habits scoring
- Fast Groq SSE stream
- 100% Client-side local data storage privacy

UNFAIR ADVANTAGE

- Proprietary local-first logic
- Zero cloud database cost
- Multi-symptom JSON scheme mapping

CHANNELS

- Corporate wellness programs
- College wellness centers
- Open-source community

CUSTOMER SEGMENTS

- Busy professionals tracking habits
- Rural patients seeking basic screening
- Health-conscious tracking enthusiasts

COST STRUCTURE

- Server API computing fees (Groq/Express)
- Domain keeping & SSL security
- Open-source codebase enhancements & maintenance

REVENUE STREAMS

- Premium custom wellness logs (B2C)
- Anonymous, structured symptom analytics (B2B)
- Corporate employee health dashboard licenses
